

# Linda Chornobay

## Specializing in helping clients pursue the Disability Tax Credit

Linda Chornobay, from Enabled Financial Solutions Ltd., aims to “take the stress out of the equation.” In addition to attending one of Enabled Financial Solutions free seminars, “clients can also receive free eligibility assessments and free tax reviews to determine if they qualify,” Linda says, pointing out that part of her success is in knowing Canada Revenue Agency’s protocol and how to approach doctors. The result is that “our success rate is 95 per cent,” she says, noting that refunds can go back as far as 10 years. Linda also brings experience as a physician’s daughter, plus a background

in the administrative, medical, legal professions, and serves everyone, from children to seniors, with disabilities or marked restrictions. The most common qualifiers are arthritis, back/knee problems, heart conditions, and mental functions. If you think you might qualify, take Enabled Financial Solutions’ online evaluation, then call Linda for more information. “We are advocates between clients and their doctors and advocate between doctors and the Canada Revenue Agency – success is our goal.”
